Aromatherapy is the ancient medicinal practice of applying essential oils for physical, mental, emotional, and spiritual health & wholeness. This foundational intensive is designed to ground the participant in a basic but deep understanding of the ancient relationship between humans and the plant & tree kingdom. While allopathic medicine is barely 200 years old, plant & tree medicines are thousands of years old, and medicinal aromatherapy is steeped in this ancient tradition.

Essential oils are incredibly effective and powerful in treating hundreds of physical ailments (family and pets first aid), mental/emotional conditions, your own personal spiritual growth, and everything in between WITHOUT side effects that often occur with pharmaceutical drugs. Medicinal Aromatherapy is the bridge between the physical and spiritual realms, and the essences are waiting for you to take this journey with them. In this intensive, participants:

- learn the importance of using medicinal grade essential oils
- are taught safe and long term storage
- co-create an essential oil regimen for your health priorities
- learn the importance of layering
- are instructed on safe application: applying "neat" vs. with carrier oil

All the essential oils used in this course come from Wisdom of the Earth, a spiritually and ethically based healing company located in Sedona, AZ offering over 225 single, pure, hand-poured plant and tree essences thoughtfully harvested by carefully chosen farmers from around the world.

The seminar fee is \$475.00 (\$450.00 early registration - at least 4 weeks before class), with 50% due at the time of registration and the balance due the first day of the seminar.
